New message to: tismm_7078 New, from the Factory in a sealed plastic package and maybe you can put the Blame on the Manufacture to have packaged it like that! But I do not think you should even go there with that as you have no other options to put the blame on someone stating is appears to be used! Like I said once, Appears is not the right word for this return because it is used or not used. Appears is just an opinion of what you think and hearsay does not have a chance to stick! I want to finish this the correct way and that is to have Ebay involve when this is Filed as a Lie that will cost me money and much time thereafter and has already cost me time and you will pay for that! You may take all I have given you as a reference to show you that you are stating SOMETHING that IS "IMPOSSIBLE" as just the Clip statement alone you will sink

over. So there is no one to blame on that statement as you wrote it in the return defect. "IMPOSSIBLE" If you had only seen your message I sent to you on the 16th of February and read and Believed I do what I say in the Description you would have never put down the statement for returning as you did. If you cannot see that, then I am sorry I am going to make you pay for this. This is not a Game as this is Business and Something you do not make up to have a reason to return defective and claim items that do not exist no where in this listing, not on the package itself. A CLIP. That is enough alone for me. So please send it back as you stated so I can do as I stated. You may call this what you want as you say Bullying. Well please see the Webster Dictionary for the Correct way to say this is Bullying. This is only letting you know what you have started I am going to finish. DO UNTO OTHERS AS YOU WOULD HAVE THEM DO UNTO "YOU" WHAT YOU HAVE STARTED WILL COST ME MONEY AND RECEIVE A DAMAGE ITEM BACK. IT WAS NEW! I WILL BE STUCK WITH IT. MORE LOSS. That is why I am going to prove you lied! YOU TOOK FROM ME \$103.04. & TIME! DO THE MATH
I never LOST A DISPUTE!

Delaying funds availability is a common industry practice we implement to help ensure the secure use of PayPal by both buyers and sellers. By placing your payment on hold, we're trying to make sure that there's enough money in your PayPal account to resolve any issues that may arise with your account (such as chargebacks or disputes). When subject to a hold, the money is temporarily unavailable to use. If there are no issues with your transaction or account, the payment will be made available after 21 days (with options to release earlier)

I total agree with you and I can see your transaction history.

Normally it is for 21 days hold for 'Goods and Services' Transaction. It is not base on the account standards. It is all for the users across.

You can work to expedite the release of temporarily unavailable funds by processing your sales quickly and then providing the fulfillment details.

1. Print shipping label with USPS or UPS on PayPal website and we'll automatically update the tracking information for you and the funds will be released 1 day after confirmed delivery.
2. If you didn't print the shipping label for a supported carrier with PayPal, upload the tracking number of one of our Supported Carriers. PayPal will release the payment after 24 hours of the courier's delivery confirmation.
3. Your buyers have the option to confirm that they received the item/service and your money will be released immediately.
