Hey Anthony,

As we discussed, we have people searching for copier repair in your area, and I need another option to start forwarding the call to.

Here's a quick rundown of what we offer. Our goal is to connect consumers with local copier repair shops at the moment they're ready to book an appointment. When someone is searching for local copier repair technician in their area, we show them a list of businesses we recommend nearby; the consumer chooses one and calls.

- **Only Pay for the Good Stuff:** only pay when a customer finds your listing through us and **CALLS** your business directly about **YOUR** services

- **Find Out What Happens:** train your front desk staff with our cutting edge call analytics tools used successfully by fortune 500 companies to track investment return and **improve close rates** and overall call quality

- **Get Found. Everywhere:** we build you a web presence and a mobile page; at no charge. Our exclusive partner network puts you in front of local searches on **Google, Bing, Yellowpages.com, Superpages, Yahoo! Local** and hundreds of others plus premier placement on Copier-RepairMan.com; *combined reach of over 200 million consumers a month*

- **Control Your Message:** showcase your services, hours, prices, pictures, videos, promotions, so that **consumers see your business as you want it presented.**

- **Pay as You Go:** **NO** set-up fees, **NO** disconnection fees, **NO** long term commitments.

You can try out the service for as long as we are profitable for you

While you are considering trying us out for a few calls, I encourage you to check out our company website www.getfelix.com, our parent corporation www.iac.com, and of course where you will be listed on www.copierrepairman.com
