

I cannot believe that Stanley steamer hires thieves. We hired the company to come and clean our airducts and they stole a cable box from us along with wires, .. I understand it can take between two and four hours to clean four airducts and the were at my house less than an hour. Guess they do not know they are dealing with a law student and I am related to members of law enforcement. This is my reply to my complaint on pissed consumer from Scott at Stanley Steamer on Congress in Delray beach. "Why on earth would technicians steal a cable box? They werent looking for your cable box in fact they didnt even notice it because its worthless just like you. Take your factless complaint and throw it off a cliff..and take yourself with it!" I have a voicemail from Scott saying something very similar, so I know for a fact it is him. Any law enforcement agencies, attorneys and or the media get in touch this company is going down.
