Why? What is the reason? I'm not looking for reinstatement, as at this point, I do not want to have anything to do with this kind of organization.

You also have private information that I need you ensure that you erase. Please reply with confirmation that all my information is expunged.

I just opened an Etsy account and also a selling account. After finishing the 5 steps and adding a product, I connected my Etsy account to my Printful account and when I tried to push products through, I discovered my account was suspended. Can you kindly tell my why? The dropdown below only shows 2 options that don't really apply. What do I need to do to get it restarted?
