Respectfully, Sir/madam,

This information is from the chase bank commercial department, Your project payment to your bank account details has been made but hasn't yet been fully process it's currently on pending/indeterminate, There's a misconfiguration of payment gateway and technical failure due to the difference in USA banking system and that of your country.

The SWIFT networks requires transfer to pass through up to three correspondent banks before arriving at their destination and you're require to create a portal with your bank account to the company chase banking service, To enable safe, flexible and successful transaction; so the commercial bank officialist can link your bank account to the CHASE BANK payment server.

The portal creation charges is \$150 USD; Please Kindly contact your company hiring manager/agent brenda arce for directions on how to make the payment and also provide the necessary informations for the portal creation process, And please make arrangements to remit the necessary amount and ensure that a shortfall like this is not repeated; because the fault is from your bank account.

Your patience and usual co-operation is highly appreciated by the chase bank commercial department.

Sincerely,

MANAGING AGENT:

JPMORGAN CHASE BANK, N.A.
