

Initial Concerns

Red: requires immediate attention.

The service(s) listed below are the recommendations made by your technician **Juan C** as the repair necessary to resolve your initial concern.

Yellow: in need of attention soon.

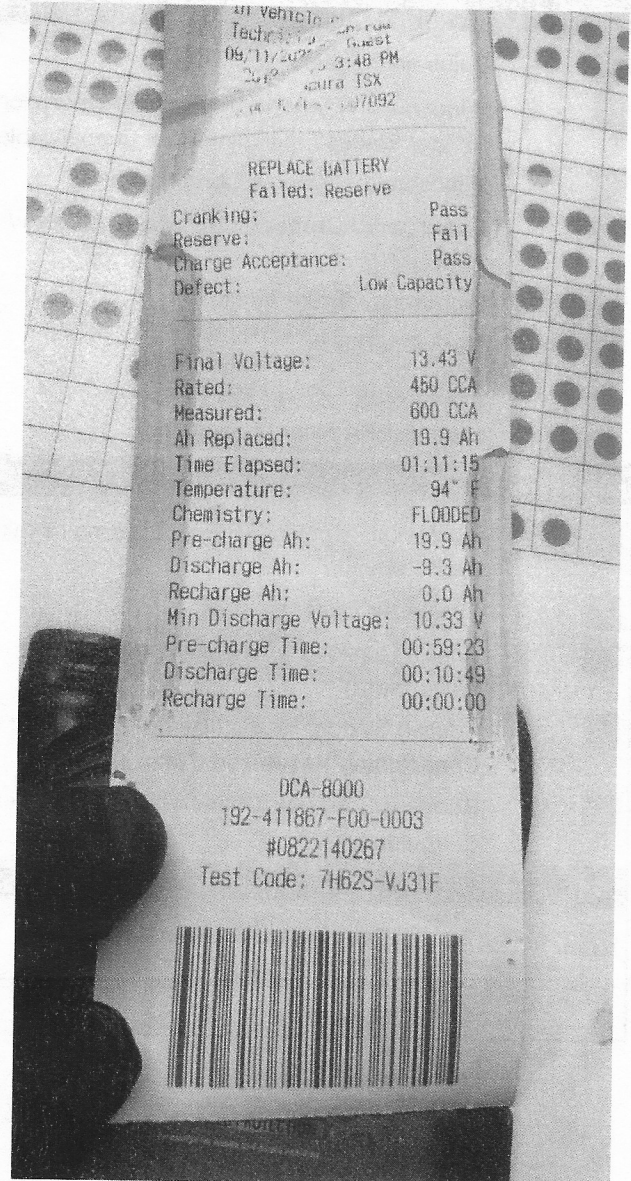

Battery Replacement

Item Description

The battery, in conjunction with the alternator, supplies power for engine cranking and electrical power needed for the lights, stereo, and all other electrical components.

Reason

If the battery is not replaced periodically, the battery will fail. Also, a defective battery can contribute to starter failure.

Battery

Additional Service Recommendations

Red: requires immediate attention.

Yellow: in need of attention soon.
