

Request for Refund, Provision Credit Investigation

Subject: Netspend must determine whether BooxAI broke the contract agreement, by not providing services on time. And provide solid proof, and contact my secretary to verify, Gorsha400@gmail.com I wish for a full refund, switch subscriptions, and start over with a new payment subscription. My secretaries have called to help resolve the issues.

I did not get my services done on time, and we have been struggling since day one, we are late. They won't talk to my secretaries, they won't fix problems immediately, they have a 30 day money back guarantee, they took four months, and they are still struggling, hurting my sales. I only sold 6 copies in six months. It's not working, so I asked for a new management team. I would like a full refund, so we can start over. I will go on subscription payments, because they won't do the work, after getting paid up front. Their policy, 12-30 days over months, is still struggling. Their policy below, says they want a full refund, with provisional credit, unless they can show you they have completed the work, within the promised time. They did not, and they broke the contract.

A handwritten signature in black ink, appearing to read 'Marlon Green', with a long horizontal line extending to the right.
